To be the LEADER in each of the markets we serve

Our Services

PARTS

Parts availability is our most significant competitive advantage. When a Cat® part is not in stock, we can have it available in our facility in less than 24 hours.

- Complete inventory with over 20,000 line items
- Cat® remanufactured and classic parts that are within your budget
- Experts in parts shipping logistics stand ready to promptly respond to your needs
- Ability to purchase parts online via the PartStore™ and Instant Access
- Experienced sales consultants help you maximize the value of your investment, offering solutions that are targeted to increase your equipment's productivity and reduce downtime.

SERVICE

… at our facilities

Our shops are equipped with the specialized tooling to perform any type of repair or maintenance work.

- General workshop, specialized area with dynamometer, transmission testing area, and rebuild area
- Certified rebuild of your Cat® equipment, electric power generators and engines
- Strict quality control and contamination control processes

… fieldwork

For your convenience, our field technicians will gladly bring our services straight to your facility or project.

- Large fleet of service trucks fully equipped with the latest computerized diagnostic equipment and all the necessary tools
- Expert technicians specialized in heavy equipment, electric power generators, gas engines, marine engines and on-highway vocational trucks

ns.

To provide ABSOLUTE EXCELLENCE in each and every interaction with our customers

Solutions to maximize the value of your investment

CONDITION MONITORING

Be proactive in managing the condition of your fleet to reduce owning and operating costs. You can count on us to:

- Carry out inspections on your equipment in order to anticipate potential faults
- Maintain repair history and manage data pertaining to productivity optimization
- Process and analyze oil and coolant samples
- Provide an assessment and recommendations on the optimal use of equipment at your site
- Analyze electronic data coming from your equipment through ProductLink™

TECHNOLOGY

Monitor your equipment's health & utilization through the new **ProductLink™** technology. Access to real time information on:

- Equipment location & SMU hours
- Maintenance due alerts
- Fault code alerts (diagnostic & events)
- Fluid analysis results
- Utilization hours (working or idle)
- Fuel consumption

Increase equipment productivity up to 40% with Accugrade technology, which indicates the optimal way of conducting earthmoving activities through laser technology, GPS, and Advanced Tracking Sensors (ATS), among others, eliminating the need for other measurement devices.

PRODUCT PROTECTION

Other solutions to protect your investment:

- Certified Service Agreements **(CSA)** for any Cat product with an array of service options and payment plans
- Extended Service Coverage **(ESC)** for Cat generators and marine engines
- Equipment Protection Plan **(EPP)** for Cat equipment
- Preventive Maintenance Parts Kits **(PM KITS)**
